STATINTL MEMORANDUM FOR: [REDACTED]

Office of General Counsel

STATINTL FROM :

[REDACTED]
Acting Director of Personnel

SUBJECT : Senator Huddleston's Letter of 16 September 1977

Bill:

This is in reference to your request for comments on Senator Huddleston's letter asking for the Director's views on the need for retention of certain provisions in the Agency's current legislation. Subparagraph (c) and the last paragraph are the only items of direct Office of Personnel concern.

The provisions of subparagraph (c) which deal with reimbursement of other government agencies for personnel assigned to work with CIA provide no particular advantage or authority not otherwise available. All government agencies have the authority to arrange for the detail of personnel to or from other agencies. The matter of reimbursement is subject to negotiation between the participating agencies and is normally determined on the basis for the detail. Services in the interest of the parent agency are usually not reimbursed; services performed directly on behalf of the receiving agency are reimbursed. We do not believe this provision in the law is essential to the administration of detailed personnel either to or from the Agency.

With reference to the last paragraph of the letter, we find the two references cited as part of 50 U.S.C. 403g (section 654 and section 947 of Title 5) have been repealed and have not been replaced elsewhere in the Code. It is our understanding that the reporting requirements formerly contained in these two sections were eliminated for all government agencies. We would recommend, however, that a provision similar to this one be included in any revised charter legislation. The Agency should remain exempt from any requirements to report personnel data which would conflict with the Director's statutory responsibility for the protection of intelligence sources and methods. A specific

exemption, if it can be provided, would avoid having to make special arrangements and/or offering detailed explanations each time making such information available becomes a matter of security concern.
